TEMPORALY CLOSURE OF HEALTH INSTITUTIONS

It has come to the notice of the **Directorate of Health Services** that you are operating a Private Health Institution without a **clearance letter** from the Ministry of Health. Findings from our last assessments revealed some structural and services process gaps that needs to be address. These gaps compromise the standards and quality-of-care the Ministry of Health aim to achieve in the health system.

With this backdrop, the Health Institution will be **temporally close** until its status is regularized with the Ministry of Health and recommendations from the past assessment are work on.

Your cooperation is highly solicited. Failure to adhere to the regulation can lead to serious implications and penalties.

Best regards,

.....
Director of Health Services

Ministry of Health

The Quadrangle, Banjul
